

# Eshwar Vanguri

Frontend Web Developer | [eshwarvanguri@gmail.com](mailto:eshwarvanguri@gmail.com) | India (open to remote)  
[github.com/eshwarvanguri](https://github.com/eshwarvanguri) | [linkedin.com/in/eshwarvanguri](https://linkedin.com/in/eshwarvanguri)

## SUMMARY

Frontend developer focused on semantic HTML, responsive CSS and modern JavaScript. Currently completing the Traidix Tech full-stack program, building accessible, mobile-first interfaces from scratch.

## SKILLS

Markup & Styling: HTML5, Semantic HTML, CSS3, Flexbox, CSS Grid, Media Queries

JavaScript: ES6+, DOM API, Events, Fetch, localStorage

Tooling: Git, GitHub, VS Code, GitHub Pages, Vercel, Chrome DevTools

Fundamentals: Responsive design, Accessibility (WCAG AA), HTTP basics

## PROJECTS

### Personal Portfolio Website

Responsive single-page portfolio: sticky nav with scroll-spy, hero, about, skills, projects grid, validated contact form and a persistent dark mode toggle.

HTML5, CSS3 (custom properties, Grid, Flexbox), vanilla ES6+ JavaScript.

### Week 1 Exercise Suite

Seven standalone builds: semantic HTML reference page, product landing page, responsive navbar with mobile drawer, Flexbox vs Grid card layouts, accessible contact form, counter app with localStorage, and a theme switcher.

## EDUCATION & TRAINING

Traidix Tech - Full-Stack Web Development Program (in progress, 2026)

Week 1: web fundamentals, HTML5, CSS3, responsive design, JavaScript, Git & GitHub.
